教學目標與內容	This course aims to help learners become more confident, independent, and active readers of English. It motivates students with reading selections which are relevant, informative, touching, fun, natural sounding, and varied. In this class, students spend time reading, but not just doing exercises about reading. It also provides opportunities to incorporate listening and speaking, allowing for a whole language approach using reading as the pivot. The material revolves around a general theme (such as culture and society, business, travel, entertainment, food, and health). This thematic approach allows students to build on theme-related background knowledge, providing anchors for adding and relating additional vocabulary and content expectations.
