	英文：English (I)	先修課程				
教學目標與內容	This course is primarily focused on the introduction of reading skills and strategies. It also acknowledge students the history background and cultures of the United States. Students are able to build vocabulary, reading, and real life skills as well as knowledge through the reading selections. Activities involving critical thinking and discussion are provided for students to empower their reading competence and prepare students to further read and comprehend more academic texts. Students are expected to become successful and independent learners through the course. In-class work such as pre-reading exercises and topics for discussion are conducted to stimulate their interest in language learning and build their reading strategies. Post-reading exercises are provided for students to reinforce the necessary reading skills.
